It is the kind of publicity usually prepared only after hard campaigning by a chamber of commerce or an association of business men to line up the commercial or farming interests in an aggressive effort to put their home town or city "on the world's map."

But this time it costs nothing other than to Potosi or any of the farming communities of Washington County which will profit by it.

The E. A. Strout Farm Agency, Inc. is going to spend \$10,000,000 this year in a campaign to help its 700 agents all over the United States to make good the agency's promise to find for a purchaser "The Farm You Want Where You Want It." And Potosi is going to get a big share of the business of the benefits of that campaign. Mr. Bell moved into this section of the state.

It would make a boy who was raised in the country homesick for the farm again to glimpse at the pictures of farm life interests that illustrate this little booklet. It not only goes to and describes the big farm business of this section but contains illustrations to show the beauty and prosperity of this section of the state. Potosi's most prominent citizens have written the foreword and introduction.
